

Tired of your current Medicare IDTF?

Our flagship internet application, **ADVANCEDOXIMETRY™**, will allow DME customers to complete oximetry tests easily and pain free through our automated system. With our three easy steps, **SCHEDULE. PRINT. UPLOAD.™**, DME providers can have patients tested and qualified in less than 24 Hours. Our service is simple, free and provides the best customer friendly support. We stand by and guarantee that with our system and staff, no one will beat our impeccable service.

- ✓ Oximetry data entry solutions provided by our company, if chosen.
- ✓ Fast, reliable & friendly customer service representatives.
- ✓ Dedicated support servicing all time zones.
- ✓ Accountability & Traceability to help with heated CMS audits.
- ✓ Medicare Certified IDTF while also working with all commercial insurance plans.
- ✓ Easy to Read and Interpret Oximetry Reports & Graphs
- ✓ Final, tech edited Oximetry Reports available within Minutes
- ✓ Lowest out of pocket fee for private pay patients (*\$28.00 or less Nationwide*)
- ✓ Executive Dashboard to track and manage referral sources & qualifying oxygen patients.

Here at ADSI we care about each and every one of our customers. We know your company is unique and we take that extra time to learn about your company and its needs. Whether you process one oximetry order a month or 100 oximetry orders a month, we guarantee that you will get the same treatment and courteous service you deserve.

Stop wasting time with the competition and join the team that works for you!

According to the Medicare Transmittal 173 released in 2005, a DME Supplier can deliver a pulse oximeter for a beneficiary to self-administer the pulse oximetry test if the following circumstances have been met:

- 1) The beneficiary's treating physician has ordered an overnight pulse oximetry test.
- 2) The test is performed under the direction and/or instruction of a Medicare-approved IDTF. Because it is the beneficiary who self-administers this test, the IDTF must provide clear written instructions to the beneficiary on proper operation of the test equipment and must include access to the IDTF in order to address other concerns which may arise. Because CMS Pub.100-3, section 240.2.C prohibits DME suppliers from performing tests, the DME supplier may not create this instruction nor participate in the conduct of the test.
- 3) The test unit is sealed and tamper-proof such that test results cannot be accessed by anyone other than the IDTF who is responsible for transmitting a test report to the treating physician. The DME supplier may use related technology to download test results from the testing unit and transmit those results to the IDTF. In no cases may the DME supplier access or manipulate the test results in any form.

Applicable Diagnosis Codes for Ordering Overnight Oximetry Studies

162.2 - 162.9	MALIGNANT NEOPLASM OF MAIN BRONCHUS - MALIGNANT NEOPLASM OF BRONCHUS AND LUNG UNSPECIFIED
391.8	OTHER ACUTE RHEUMATIC HEART DISEASE
398.91	RHEUMATIC HEART FAILURE (CONGESTIVE)
402.01	MALIGNANT HYPERTENSIVE HEART DISEASE WITH HEART FAILURE
402.11	BENIGN HYPERTENSIVE HEART DISEASE WITH HEART FAILURE
402.91	UNSPECIFIED HYPERTENSIVE HEART DISEASE WITH HEART FAILURE
404.01	HYPERTENSIVE HEART AND CHRONIC KIDNEY DISEASE, MALIGNANT, WITH HEART FAILURE AND WITH CHRONIC KIDNEY DISEASE STAGE I THROUGH STAGE IV, OR UNSPECIFIED
